Sexual Activity and Condom Use for High School Students in Philadelphia by Grade (2023)

Currently Sexually Active*

**Currently sexually active refers to students who had sexual intercourse with at least one person during the past 3 months*

Did Not Use Condom at Last Sexual Intercourse*

**Did not use condom during last sexual intercourse among those who were sexually active*

Data is collected from the Philadelphia population and does not include suburban counties in New Jersey or Pennsylvania.

As students progress through high school, they are more likely to be sexually active, but are also more likely to engage in unprotected sex.
