

Have you every thought, "what I would do is..."? *This is your chance!*

So if you are...

- *passionate about needs of people living with HIV*
- *willing to represent Southeastern PA or Southern NJ*
- *willing to set service priorities that may benefit you, your neighbors, family, and friends*
- *willing to decide where the money goes that supports the community's needs*

...come have a seat at our table!

Our table is the HIV Integrated Planning Council (HIPC), and it may be the group for you. **HIPC members are community volunteers**, most of whom either provide or receive Ryan White HIV services. Members work together to determine the service priorities and where the money goes for Ryan White Part A funded services. HIPC meets once a month as a full council and once a month within a subcommittee of their choosing to **create needs assessments, set priorities, invite presenters, and much, much more to help inform their decisions.**

Consider joining us!

Learn more about us at hivphilly.org/about/about-hipc/
but more importantly go to...
hivphilly.org/planning-council/apply/
to fill out the application to join us.

We welcome you to the table!
